work? ^{the have}
^{that a solar panel}

we would burn too much
coal!

we wouldn't be
breathing!

how does smoke pollute the
air?

What can I do to help? not
throw paper out

how can we be water wise?
not waste it

what is sustainability
all about? ^{helping the}
^{world!}

Why do people have to?

- Bio diversity is very important
- when you turn off electrical appliances you are saving nature
- rethink about what you put in the waste
- when you drive you pollute
- animals can be killed by rubbish
- we shouldn't chop down trees because they give us oxygen
- Sustainability means being good to the earth
- when you use air conditioning it uses more power than fans
- If you have a shower waste less water
- animals sometimes eat rubbish
- less rubbish means more animals
- I didn't know that you can recycle milk bottles
- Some water gets recycled
- I didn't know that cars can be recycled
- trees give us oxygen
- processed food uses lots of water
- soft drink uses lots of water
